1. Purpose, Scope and Status of this Guidance

PURPOSE

- 1.1 A great deal of work has been done in recent years to address the provision of training to those who are involved in the administration of public service pension schemes. However in the absence of any detailed definition of what knowledge and skills are actually required to carry out a particular role, it is difficult to ascertain whether training is truly effective.
- 1.2 In an attempt to ensure that training can be delivered efficiently and effectively by identifying and focusing on the key knowledge areas, in recent years CIPFA has developed, with the assistance of expert practitioners, frameworks covering the knowledge and skills requirements for officers and elected members/non-executives involved in the administration of public service pension schemes.
- 1.3 The proposals in this publication are intended to further promote good governance in public service pension schemes' pension boards by extending these frameworks to cover the training and development of their board members. The objective is to improve knowledge and skills in all the relevant areas of activity of a pension board and assist board members in achieving the degree of knowledge appropriate for the purposes of enabling the individual to properly exercise the functions of a member of the pension board as required under Section 248a of the *Pensions Act 2004*¹, as amended by the *Public Service Pensions Act 2013*.

1. Section 248a of the *Pensions Act 2004* sets out the following:

Requirement for knowledge and understanding: pension boards of public service pension schemes

- (1) *This section applies to every individual who is a member of the pension board of a public service pension scheme.*
- (2) *An individual to whom this section applies must be conversant with—*
 - (a) *the rules of the scheme, and*
 - (b) *any document recording policy about the administration of the scheme which is for the time being adopted in relation to the scheme.*
- (3) *An individual to whom this section applies must have knowledge and understanding of—*
 - (a) *the law relating to pensions, and*
 - (b) *such other matters as may be prescribed.*
- (4) *The degree of knowledge and understanding required by subsection (3) is that appropriate for the purposes of enabling the individual properly to exercise the functions of a member of the pension board.*

- 1.4 This guidance is intended to complement the Pensions Regulator's *Code of Practice No 14: Governance and Administration of Public Service Pension Schemes* (2015)². The *Code of Practice No 14* sets out the fact that the law requires, amongst other things, that local pension board members be conversant with the rules of the scheme and documents relating to its administration. Additionally, in the context of the Local Government Pension Scheme (LGPS) in particular, this will bring board members into contact with matters relating to investments, actuarial valuations, third party provision, scheme assurance, accounting and auditing³. This guidance therefore focusses on those areas by expanding on the specifics of the knowledge and skills requirements associated with public service pension schemes in general and the LGPS in particular, and assisting both scheme managers and pension board members in discharging their responsibilities as set out in the Pensions Regulator's *Code of Practice No 14* insofar as they apply to knowledge and skills (a summary of the respective responsibilities of board members and the scheme manager can be found at Annex A).

SCOPE

- 1.5 The guidance is set in the context of LGPS pension boards in England and Wales but pension boards in other sectors and jurisdictions may find the frameworks of use in determining their own training programmes for pension board members.

2. www.thepensionsregulator.gov.uk/docs/code-14-public-service.pdf

3. The Pensions Regulator's *Code of Practice 14: Governance and Administration of Public Service Pension Schemes* states in paragraphs 42 to 44:

'For pension board members of funded pension schemes, documents which record policy about the administration of the scheme will include those relating to funding and investment matters. For example, where relevant they must be conversant with the statement of investment principles and the funding strategy statement.

Pension board members must also be conversant with any other documented policies relating to the administration of the scheme. For example, where applicable, they must be conversant with policies relating to:

- *the contribution rate or amount (or the range/variability where there is no one single rate or amount) payable by employers participating in the scheme*
- *statements of assurance (for example, assurance reports from administrators)*
- *third party contracts and service level agreements*
- *stewardship reports from outsourced service providers (for example, those performing outsourced activities such as scheme administration), including about compliance issues*
- *scheme annual reports and accounts*
- *accounting requirements relevant to the scheme*
- *audit reports, including from outsourced service providers, and*
- *other scheme-specific governance documents.'*

- 1.6 The framework is intended to have two primary uses:
- as a tool for scheme managers in meeting the Pensions Regulator’s *Code of Practice No 14* which states that scheme managers should ‘*establish and maintain policies and arrangements for acquiring and retaining knowledge and understanding to support their pension board members*’
 - as an assessment tool for individuals to measure their progress and plan their development in order to ensure that they have the appropriate degree of knowledge and understanding to enable them to properly exercise their functions as a member of a pension board.
- 1.7 The framework is intended to apply to all pension board members. However, it has been designed so that organisations and individuals can tailor it to their own particular circumstances.
- 1.8 In addition, in recognition of the more onerous roles of chairs, the framework also includes a specimen role specification for the chair of a pension board (see the example at Annex B).

STATUS

- 1.9 In 2013, CIPFA issued a *Code of Practice on Public Sector Pensions Finance Knowledge and Skills*.
- 1.10 The *Code of Practice on Public Sector Pensions Finance Knowledge and Skills* is underpinned by five key principles:
1. Organisations responsible for the financial administration of public sector pension schemes recognise that effective financial management, decision-making, governance and other aspects of the financial administration of public sector pension schemes can only be achieved where those involved have the requisite knowledge and skills.
 2. Organisations have the necessary resources in place to acquire and retain the necessary public sector pension scheme finance knowledge and skills.
 3. Organisations have in place formal and comprehensive objectives, policies and practices, strategies and reporting arrangements for the effective acquisition and retention of public sector pension scheme finance knowledge and skills for those in the organisation responsible for financial administration, scheme governance and decision-making.
 4. The associated policies and practices are guided by reference to a comprehensive framework of knowledge and skills requirements such as that set down in the *CIPFA Pensions Finance Knowledge and Skills Frameworks*.
 5. The organisation has designated a named individual⁴ to be responsible for ensuring that policies are implemented.
- 1.11 In setting out the *Code of Practice on Public Sector Pensions Finance Knowledge and Skills*, the Institute stated that ‘*this Code of Practice applies to all individuals that take on a*

4. The officer in question should be the senior officer responsible for the financial administration of the pension scheme. In the case of the LGPS, this would usually be the chief financial officer; in the NHS, for example, it would be the accounting officer.

decision-making, scrutiny or oversight role. This includes (where relevant to the governance structures employed in the management of the LGPS):

- *officers of the administering authority*
- *elected members of the administering authority*
- *employer representatives*
- *member-nominated representatives*
- *pensioner representatives*
- *co-opted members*
- *independent advisors*
- *internal auditors and audit committee members*
- *any other individuals involved in a decision-making, scrutiny or oversight role.*

The requirements will also apply to the members of local pension boards as set out in section 5 of the Public Service Pensions Bill, as and when such boards are established.'

- 1.12** It is therefore the professional responsibility of the named individual referred to under principle 5 above to establish and maintain policies and arrangements for acquiring and retaining knowledge and skills to support their pension board members. This professional requirement is in line with the Pensions Regulator's *Code of Practice No 14* as set out in paragraph 38 of that Code⁵.
- 1.13** This guidance is offered as good practice in line with the previous *CIPFA Pensions Finance Knowledge and Skills Frameworks*, and is intended to assist practitioners in meeting their responsibilities under CIPFA's *Code of Practice on Public Sector Pensions Finance Knowledge and Skills* (2013), particularly principle 4.

5. Paragraph 38 of the Pensions Regulator's *Code of Practice No 14* states:
'Schemes should establish and maintain policies and arrangements for acquiring and retaining knowledge and understanding to support their pension board members. Schemes should designate a person to take responsibility for ensuring that a framework is developed and implemented.'

2. Policy and Legislative Background

- 2.1** On 1 April 2015, the governance structure of the LGPS fundamentally changed as a result of new governance requirements introduced by *The Local Government Pension Scheme (Amendment) (Governance) Regulations 2015*.
- 2.2** These changes have their origins in the final recommendations of the Independent Public Service Pensions Commission (IPSPC) chaired by Lord Hutton of Furness. In June 2010 the IPSPC was formed to undertake a fundamental structural review of public service pension provision and to make recommendations to the chancellor and chief secretary on future pension arrangements. The IPSPC produced an interim report in October 2010 and a final report in March 2011⁶.
- 2.3** In the final report, the Commission concluded that (page 126):
- ‘scheme members in all the public services should be able to nominate persons to pension boards and committees along similar lines to the rights of members in the private sector to nominate persons to sit on boards of trustees. Pension boards should therefore include independent professionals and scheme members in similar proportions as apply in the private sector to boards of trustees. It is also very important that as well as the “lay persons” there are also independent members, usually professionally trained and with experience of the pensions environment.’*
- 2.4** The Commission went on to make the following recommendation:
- ‘Every public service pension scheme (and individual LGPS fund) should have a properly constituted, trained and competent pension board, with member nominees, responsible for meeting good standards of governance, including effective and efficient administration (recommendation 17a).’*
- 2.5** The Commission’s recommendation was taken forward in the drafting of the *Public Service Pensions Bill* (subsequently the *Public Service Pensions Act 2013*).
- 2.6** Under Regulation 5 of the *Public Service Pensions Act 2013*, the responsible authority⁷ for each public service pension scheme established under the 2013 Act is required to make

7. The “responsible authority” for each public service pension scheme is defined in Regulation 2 of the *Public Service Pensions Act 2013* as ‘the person who may make scheme regulations.’ For local government in England and Wales, this is set out in Schedule 2 of the Act as the secretary of state (DCLG).

provision in scheme regulations that requires each pension scheme manager⁸ to establish a pension board to assist the scheme manager in relation to the following:

- (a) securing compliance with the scheme regulations and other legislation relating to the governance and administration of the scheme and any statutory pension scheme that is connected with it;*
- (b) securing compliance with requirements imposed in relation to the scheme and any connected scheme by the Pensions Regulator;*
- (c) such other matters as the scheme regulations may specify.'*

2.7 Regulation 5 further directs that the scheme manager must include within its own scheme regulations provisions that require the scheme manager:

- (i) to be satisfied that a person to be appointed as a member of the board does not have a conflict of interest, and*
- (ii) to be satisfied from time to time that none of the members of the board has a conflict of interest;*
- (iii) ensure that a member of the board, or a person proposed to be appointed as a member of the board, be able to provide the scheme manager with such information as the scheme manager reasonably requires for the purposes of provision under the above;*
- (iv) ensure that the board include employer representatives and scheme member representatives in equal numbers.'*

2.8 As required under Regulation 5, the Department for Communities and Local Government (DCLG) laid an amendment to the *Local Government Pension Scheme Regulations 2013* on 28 January 2015, setting out the arrangements for establishing pension boards in the LGPS⁹. The relevant Regulations (Regulations 105 to 109 of the *Local Government Pension Scheme Regulations 2013* (as amended) are reproduced in full at Annex C for ease of reference.

2.9 A working group of the Shadow LGPS Scheme Advisory Board Governance and Standards Subcommittee has produced detailed guidance to scheme managers (administering authorities) to assist them in establishing local pension boards. This guidance can be found at www.lgpsboard.org/index.php/about-the-board/board-guidance

8. Regulation 4 of the *Public Service Pensions Act 2013* requires that public service pension schemes established under this Act (such as the LGPS from 1 April 2014) set out in scheme regulations who will be responsible for managing or administering the scheme. In the case of the LGPS, Regulation 53 of the *Local Government Pension Scheme Regulations 2013* sets out that each administering authority is designated the “scheme manager” for their fund.

3. Key Skills

- 3.1 The CIPFA Pensions Panel, with input from technical specialists covering each element of the skills matrix, has identified the key skills that lie at the core of successful public sector pension scheme administration.

SCOPE OF THE FRAMEWORK

- 3.2 Due to the complexity of pensions administration, these skill sets extend across several disciplines from accountancy and audit into areas of investment and actuarial finance, as well as knowledge of the legislative and governance environment. In total there are eight areas of knowledge and skills that have been identified as the core technical requirements for those working in public sector pensions finance. They are:

- pensions legislation
- public sector pensions governance
- pensions administration
- pensions accounting and auditing standards
- financial services procurement and relationship management
- investment performance and risk management
- financial markets and product knowledge
- actuarial methods, standards and practices.

These are expanded upon below.

- 3.3 The Institute recognises that there will of course be other technical (non-pensions related) and “softer” skills required in order to be competent in the role of a pension board member and Regulation 107 of the *Local Government Pension Scheme Regulations 2013* (as amended) makes specific reference to board appointees having the “capacity” to undertake the role. Whilst the Regulations do not define “capacity” in this context, the guidance referred to at paragraph 2.9 takes this to mean that board members should have ‘*time to commit to attend meetings, undertake training and effectively represent employers and (scheme) members (as appropriate).*’ The “soft” skills implied here are considered to be outside the scope of this framework but should also be considered when determining the ability of pension board members to effectively discharge their duties.

PENSIONS LEGISLATION

- 3.4 The pensions landscape is characterised by a complex legislative framework. In addition to the legislation of individual schemes, there are industry-wide statutes that apply in whole or in part to public sector schemes, including the way in which schemes interact with state pensions, the tax system, the Pensions Regulator etc.

- 3.5 A knowledge of this framework and the way in which it impacts upon the operations of individual schemes is key to understanding the context within which public sector pension schemes operate and the statutory obligations they are required to discharge.

PUBLIC SECTOR PENSIONS GOVERNANCE

- 3.6 On 1 April 2015, the governance structure that surrounds public sector pension schemes changed significantly. The *Public Service Pensions Act 2013* has introduced new bodies and relationships into what, in the LGPS in particular, was an already complex governance network.
- 3.7 Understanding how the pension board interacts with the other elements of this governance structure – the administering authority, the Scheme Advisory Board, the responsible authority (eg DCLG), the Pensions Regulator etc – and the various roles and responsibilities of those bodies is critical to the success of the board.
- 3.8 Also of key importance is a knowledge of the governance frameworks that apply within the wider pensions industry (such as the Myners principles and the *UK Stewardship Code* (FRC, 2010)); within individual schemes (such as the LGPS governance statement requirements); and within the organisations that administer the schemes (for example *Delivering Good Governance in Local Government: Framework* (CIPFA, 2007)).

PENSIONS ADMINISTRATION

- 3.9 Pensions administration is perhaps the most highly regulated area of the LGPS. Administering scheme benefits, contributions and other transactions is highly complex and is governed by extensive scheme regulations, as well as industry-wide requirements on disclosure, record-keeping, data maintenance, dispute resolution etc.
- 3.10 Understanding these requirements and assisting the administering authority to ensure compliance with the various regulations, standards and codes is a key role of the pensions board, which makes pensions administration a key strand of the knowledge and skills framework.

PENSIONS ACCOUNTING AND AUDITING STANDARDS

- 3.11 The way in which pension schemes are accounted for, both as a scheme and by the sponsoring employer(s), plays a significant part in the knowledge and skills framework. The accounting requirements and associated disclosures are complex and involve a large actuarial element. Consequently this demands an understanding of the regime in order to comply with the requirements and to communicate the requirements and their implications both internally and externally.
- 3.12 In addition, both internal and external auditors play a significant role in assuring that the administering authority complies with statutory requirements. Understanding the scope of their role, and the roles played by providers of third party assurance on outsourced services, is key for local pension board members.

PENSIONS SERVICES PROCUREMENT AND RELATIONSHIP MANAGEMENT

- 3.13** Such are the scale, diversity and technical requirements of pensions operations, the use of outsourcing is commonplace. Whether it is the use of actuaries, fund managers, pensioner payroll providers or third party administrators, the skills and knowledge required to procure and manage outsourced services are central to scheme management in the public sector.
- 3.14** In some instances organisations will have specialist procurement units who will play a large part in the procurement process. In such cases many of the requirements of the framework may be met by virtue of the pension board member having access to external technical expertise. In these circumstances, users of the framework should adapt the level of detail in this skill set accordingly.

INVESTMENT PERFORMANCE AND RISK MANAGEMENT

- 3.15** In the LGPS and other schemes where contributions are invested and managed to meet future liabilities, understanding investment risk and performance constitutes a major element of the role of pension board members.
- 3.16** Administering authorities are aware of the requirement to apply the same rigour to an assessment of their own performance and the performance of those who work on their behalf. Frameworks and targets must be devised and set, and performance monitored against them and reported to stakeholders. Pension board members should be equipped with a sufficient level of knowledge to enable them to assist the administering authority in ensuring that this is done effectively.

FINANCIAL MARKETS AND PRODUCT KNOWLEDGE

- 3.17** In schemes with invested funds, an understanding of financial markets and products is fundamental. The depth of knowledge will depend to some degree upon the particular approach to investment management undertaken by the fund (the investment activities of LGPS funds for example can be split into two groups: those funds that use external managers to manage all of their investment portfolio; and those that undertake some or all of their investment activities using in-house investment managers).

ACTUARIAL METHODS, STANDARDS AND PRACTICES

- 3.18** The scheme actuary holds a key position in the financial management of a pension scheme. Pension board members will need to understand, in some level of detail, the work of the actuary and the way in which actuarial information is produced and the impact it has on both the finances of the scheme and employers.

THE KNOWLEDGE AND SKILLS FRAMEWORK

3.19 In the framework which follows, we have identified the key elements of expertise within each of the above areas of technical knowledge as they apply to pension board members. In addition, Annex D provides an example of how the framework can be used as an assessment tool for individuals.

5. Framework Status, Reporting and Compliance

DEVELOPMENT AND MAINTENANCE

- 5.1** This framework has been developed by the CIPFA Pensions Panel with input from technical specialists covering each element of the skills matrix.
- 5.2** As noted in chapter 1, it is the professional responsibility of the section 151 officer (or other named officer as appropriate) to establish and maintain policies and arrangements for acquiring and retaining knowledge and skills to support their pension board members. This professional requirement is in line with the requirement set out in paragraph 38 of the Pensions Regulator’s *Code of Practice No 14*. This framework is set down as good practice, in line with the previous CIPFA *Pensions Finance Knowledge and Skills Frameworks*, and is intended to assist practitioners in meeting their responsibilities under the CIPFA *Code of Practice on Public Sector Pensions Finance Knowledge and Skills* (2013), particularly principle 4.
- 5.3** The Pensions Panel is committed to maintaining and developing the framework as knowledge and skills requirements change over time. Any changes to the framework will go through the same process of expert review and user testing.

REPORTING AND COMPLIANCE

- 5.4** Statement 5 of the “statements to be adopted” in the CIPFA *Code of Practice on Public Sector Pensions Finance Knowledge and Skills* requires funds to report annually in their pension scheme annual reports on:
- how the knowledge and skills framework has been applied
 - what assessment of training needs has been undertaken
 - what training has been delivered against the identified training needs.

- 5.5 CIPFA recognises that in some cases members could be appointed to pension boards with little or no prior pensions knowledge. The chief officers and the chair should bear in mind the legal requirements as set out in the Pensions Regulator’s *Code of Practice No 14*¹⁰ and have in place a plan that includes pre-induction training, leading into a fuller induction programme. These factors should be reflected in the training needs assessment and the delivery of training statement in the annual report.
- 5.6 Again, the CIPFA *Code of Practice on Public Sector Pensions Finance Knowledge and Skills* requirements are aligned with the guidance of the Pensions Regulator, whose *Code of Practice No 14* says this on the subject of demonstrating knowledge and understanding:
- ‘Schemes should keep appropriate records of the learning activities of individual pension board members and the board as a whole. This will help pension board members to demonstrate steps they have taken to comply with legal requirements and how they have mitigated risks associated with knowledge gaps. A good external learning programme will maintain records of the learning activities of individuals on the programme or of group activities, if these have taken place.’*
- 5.7 The Pension Regulator’s policy and approach to compliance is set out in its *Compliance and Enforcement Policy for Public Service Pension Schemes* (2015)¹¹.
- Practitioners should familiarise themselves with this policy statement.

10. Paragraphs 34 to 36 of the Pensions Regulator’s Code of Practice 14 state that:

‘A member of the pension board of a public service pension scheme must be conversant with:

- *the rules of the scheme, and*
- *any document recording policy about the administration of the scheme which is for the time being adopted in relation to the scheme.*

A member of a pension board must have knowledge and understanding of:

- *the law relating to pensions, and*
- *any other matters which are prescribed in regulations.*

The degree of knowledge and understanding required is that appropriate for the purposes of enabling the individual to properly exercise the functions of a member of the pension board.’

6. Achieving Framework Standards – Training and Support

- 6.1** To achieve the standards set down in the framework, organisations should as a first step consider undertaking a training needs assessment against the framework standards and developing appropriate training programmes.
